Create a Classroom

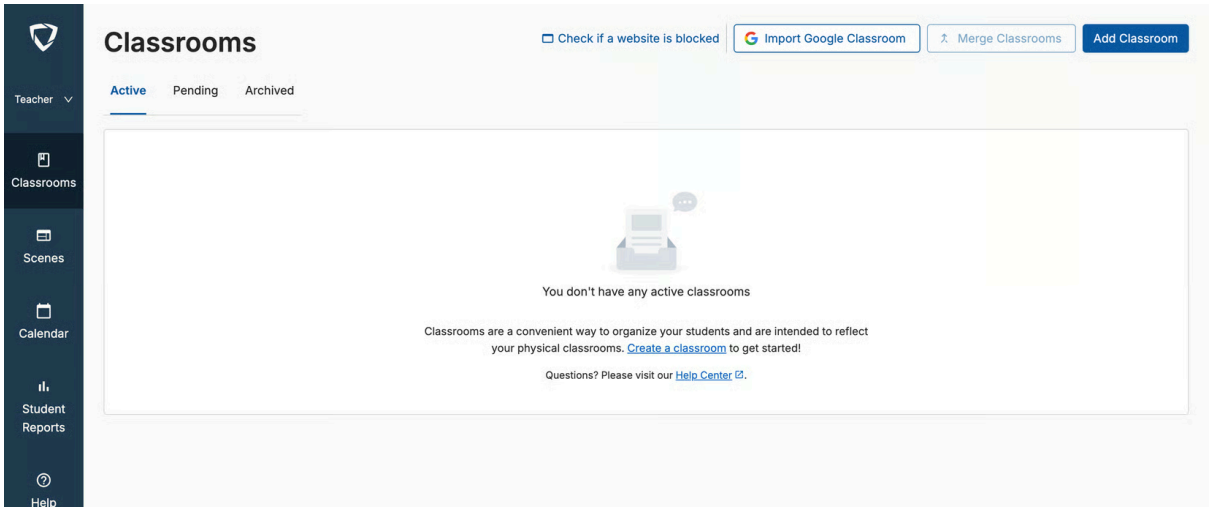
How to create, import, and sync classrooms in GoGuardian Teacher, including options for Google Classroom, Clever, ClassLink, and OneRoster integrations.

GoGuardian Teacher supports 3 options for setting up classrooms: creating one directly in Teacher, importing from Google Classroom, and syncing from a third-party rostering integration.

> The maximum number of students per GoGuardian Teacher classroom is 115.

Create a Classroom in Teacher

1. Go to the **Active Classrooms page** and click **Add Classroom**.



2. Enter a name for your classroom. This field is required.
3. Optionally, select a subject from the **Subject** dropdown, add a description, choose a color, and add a default filtering **Scene**.
4. Click **Add Classroom** to confirm. A prompt to enroll students appears. You can enroll students now or close the window and add them later.
